

## Divlje Jagode - I want your love

G

I got no money, I got no car  
I need somebody, I need some love

C

Help me baby, I know you can do it

G

Tell me baby what is wrong.

B                      F                      G

I want your love all night long.

G

I need some action, I need a love  
One who cares if you shoot me down

C

Help me baby, I know you can do it

G

Tell me baby what is wrong.

B              F              G

I want your love.

I wanna be your lover, I wanna be your star  
I don't care if you stay around  
Listen baby, listen to me  
Oh, I rather wanna be rock'n'roller.

I want your love all night long.

Listen baby now,

I got no money, I got no car  
I need somebody, I need a love  
I don't care if you stay around  
I don't care if you go.

I want your love all night long

I want your love all night long  
I want your love all night long  
I want your love.
